

# Track position at UTOF

# Track slope at UTOF

# Track position at UTOF (cluster size=0)

# Track slope at UTOF (cluster size=0)

Track position at UTOF (cluster size=1)

# Track slope at UTOF (cluster size=1)

Track position at UTOF (cluster size=2)

# Track slope at UTOF (cluster size=2)

Track position at UTOF (cluster size=3)

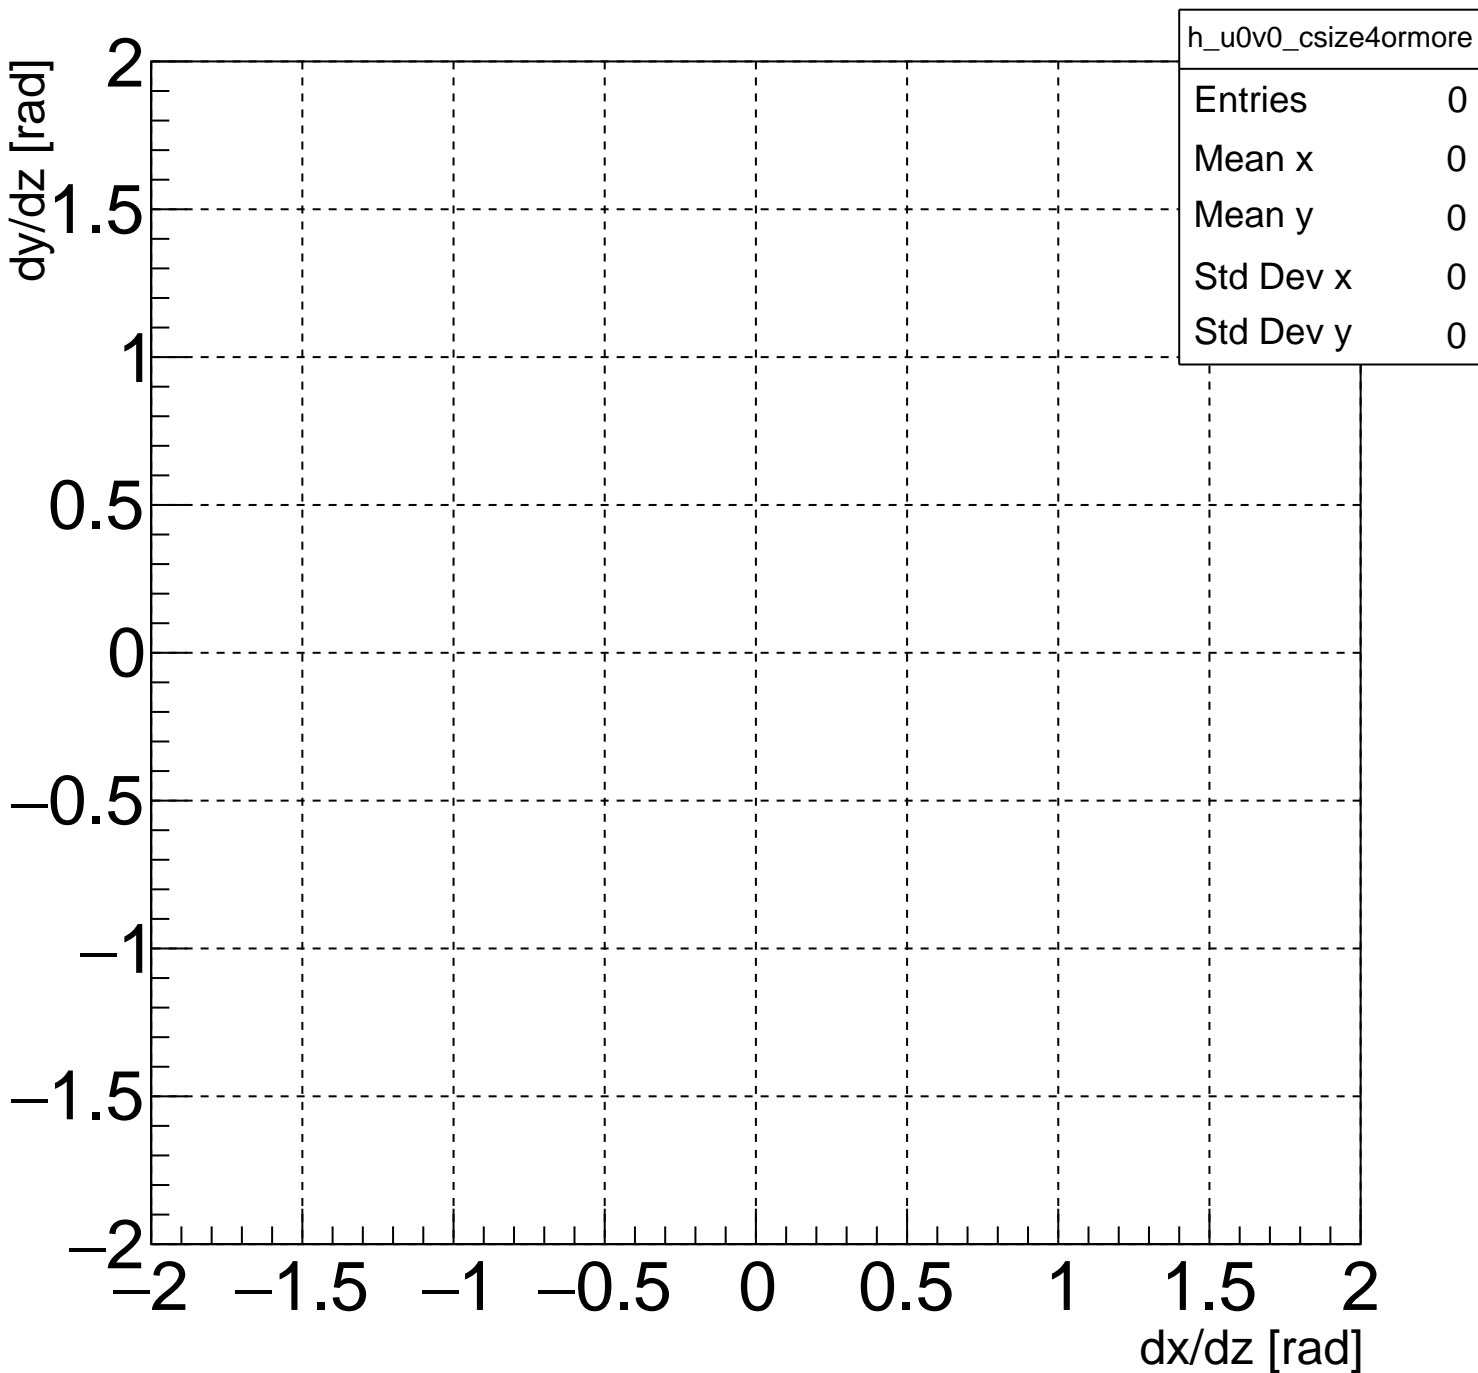

# Track slope at UTOF (cluster size=3)

# Track position at UTOF (cluster size>3)

# Track slope at UTOF (cluster size>3)

# Track position at LTOF

# Track slope at LTOF

# chi square of all tracks

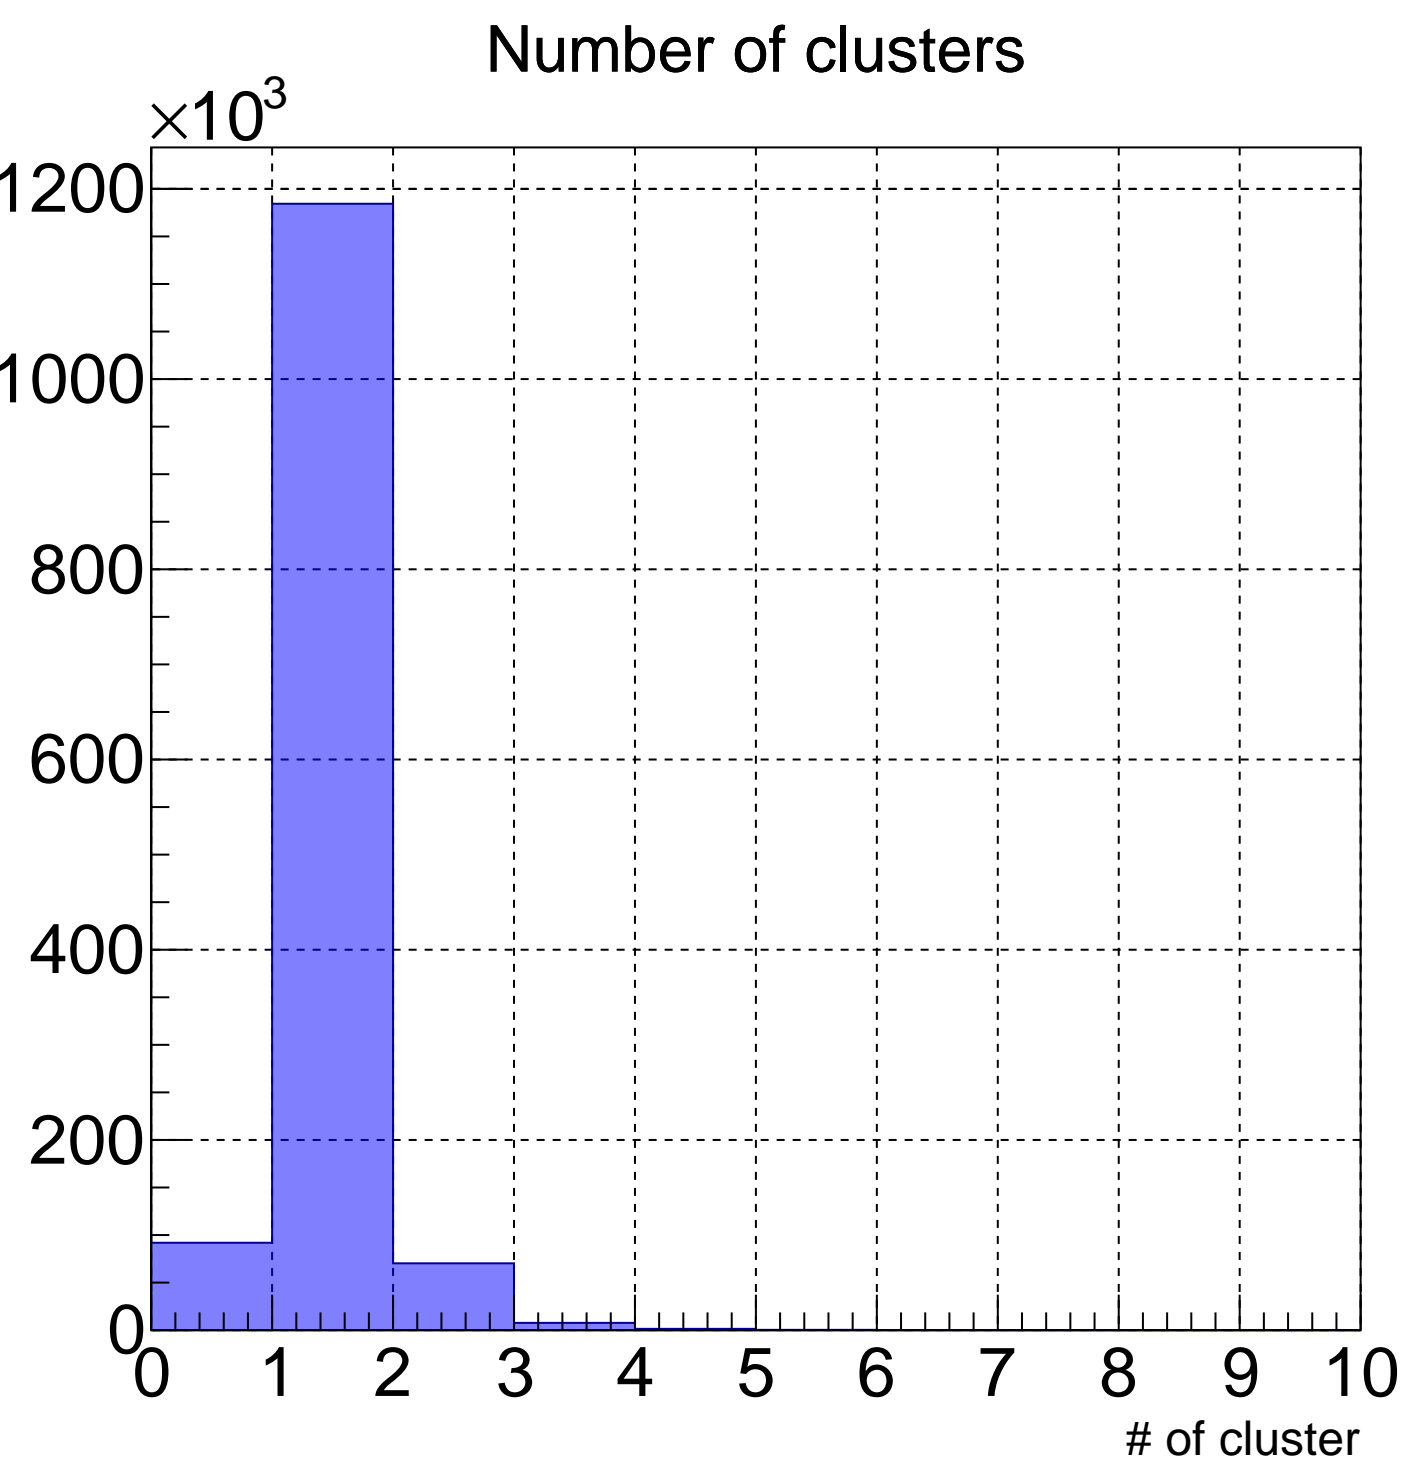

chi square of all tracks (log scale)

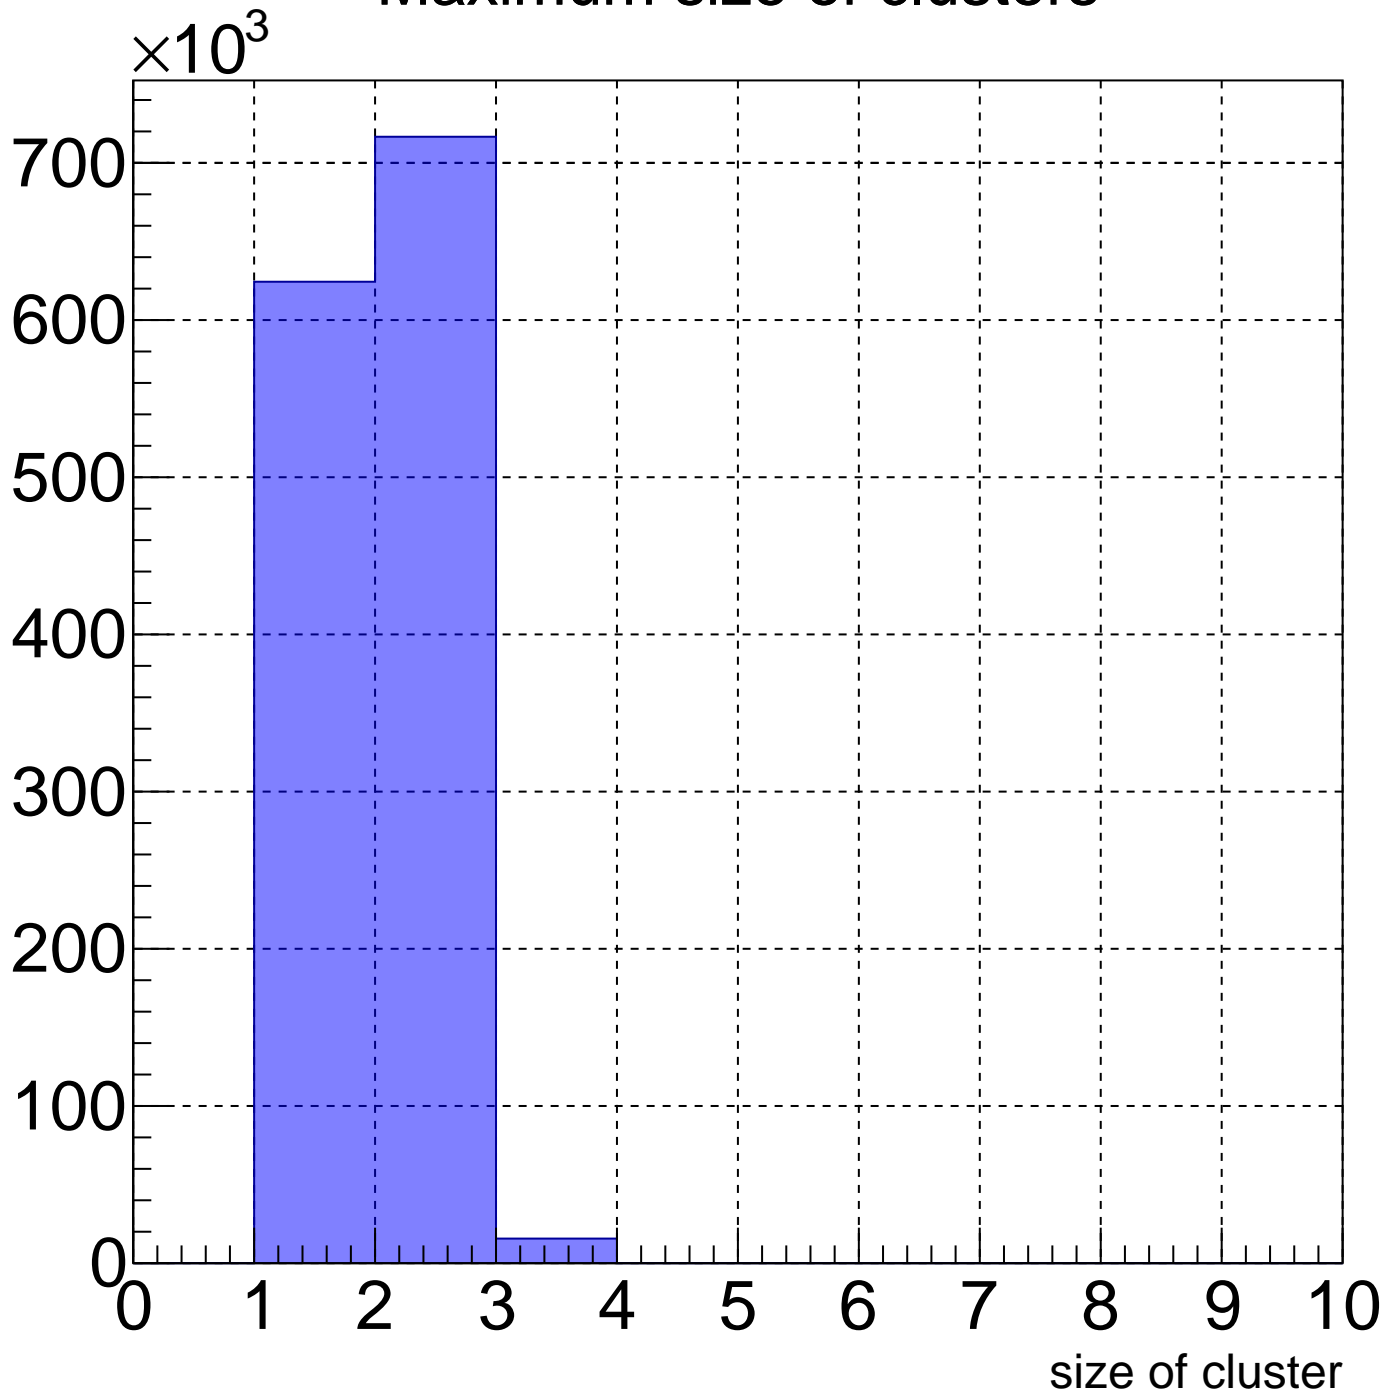

chi square after Prob

# Maximum size of clusters

# of hit layers per track

# position of layer 1

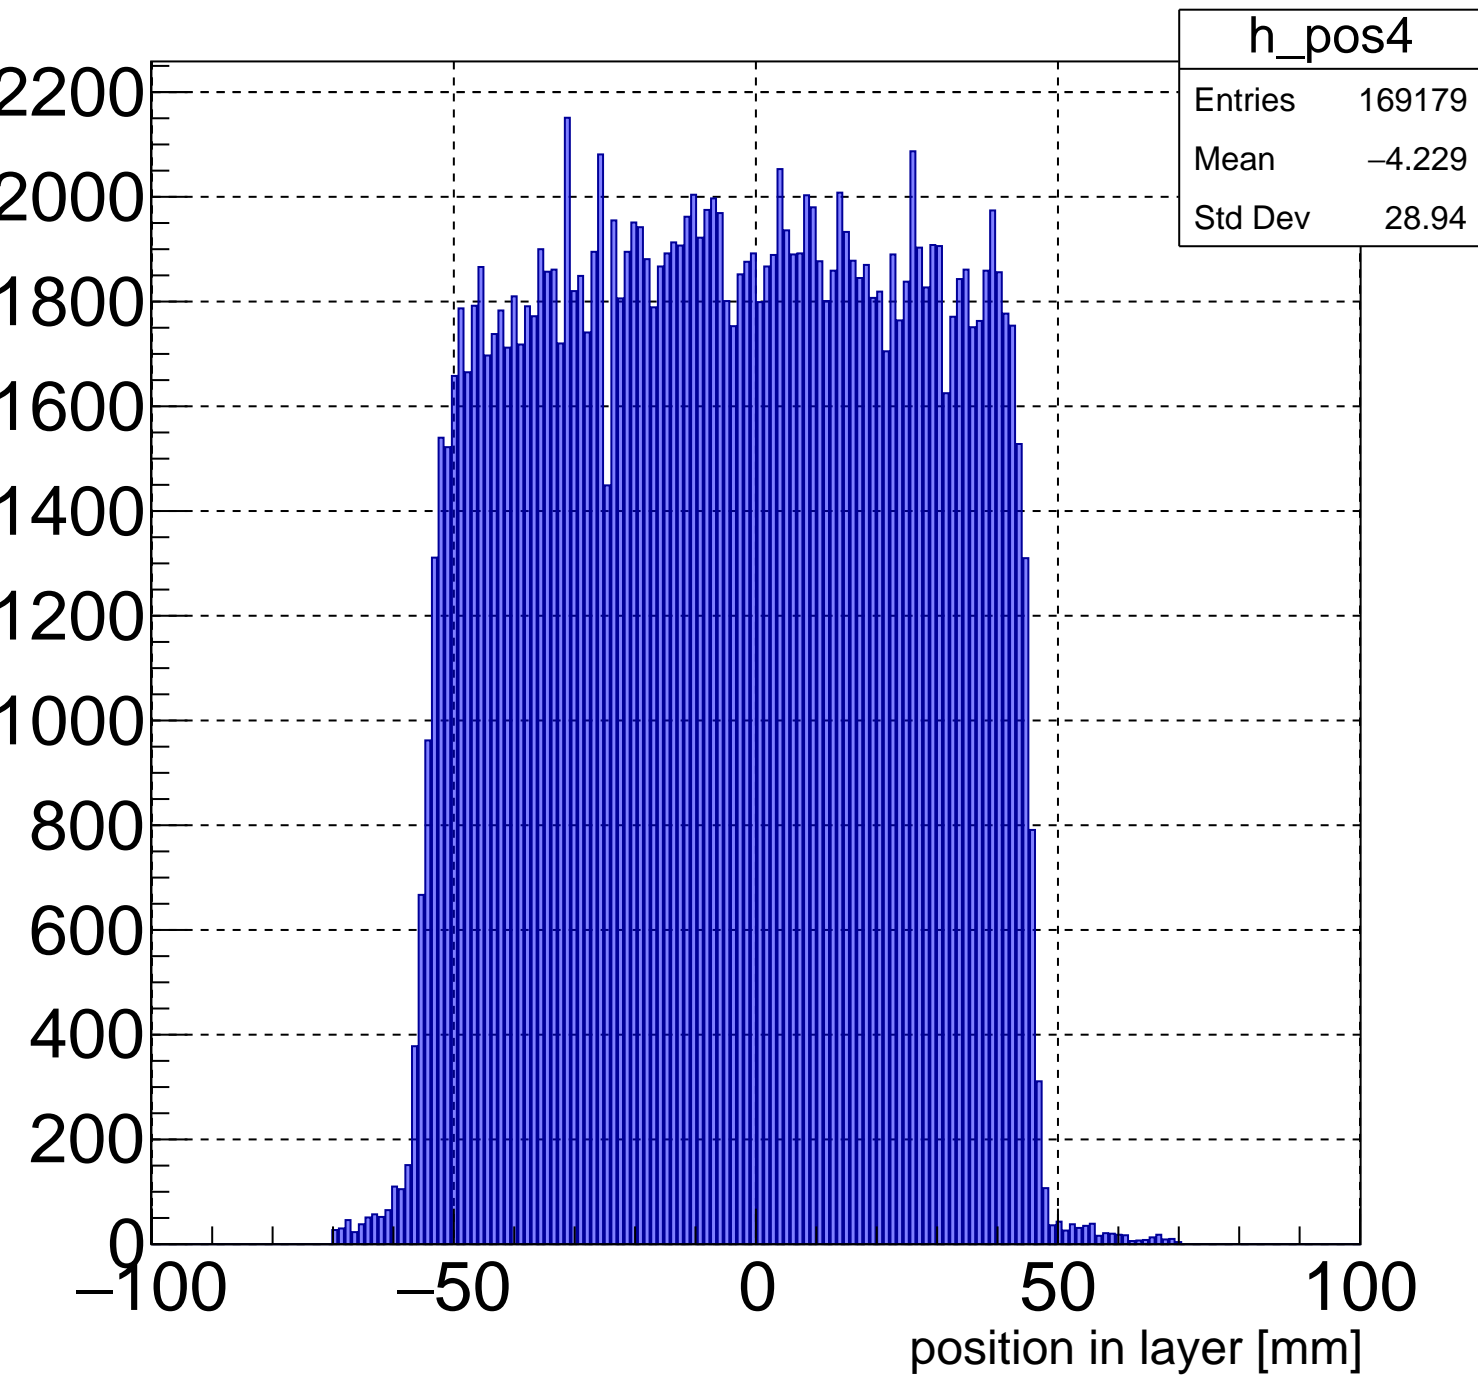

# position of layer 2

# position of layer 3

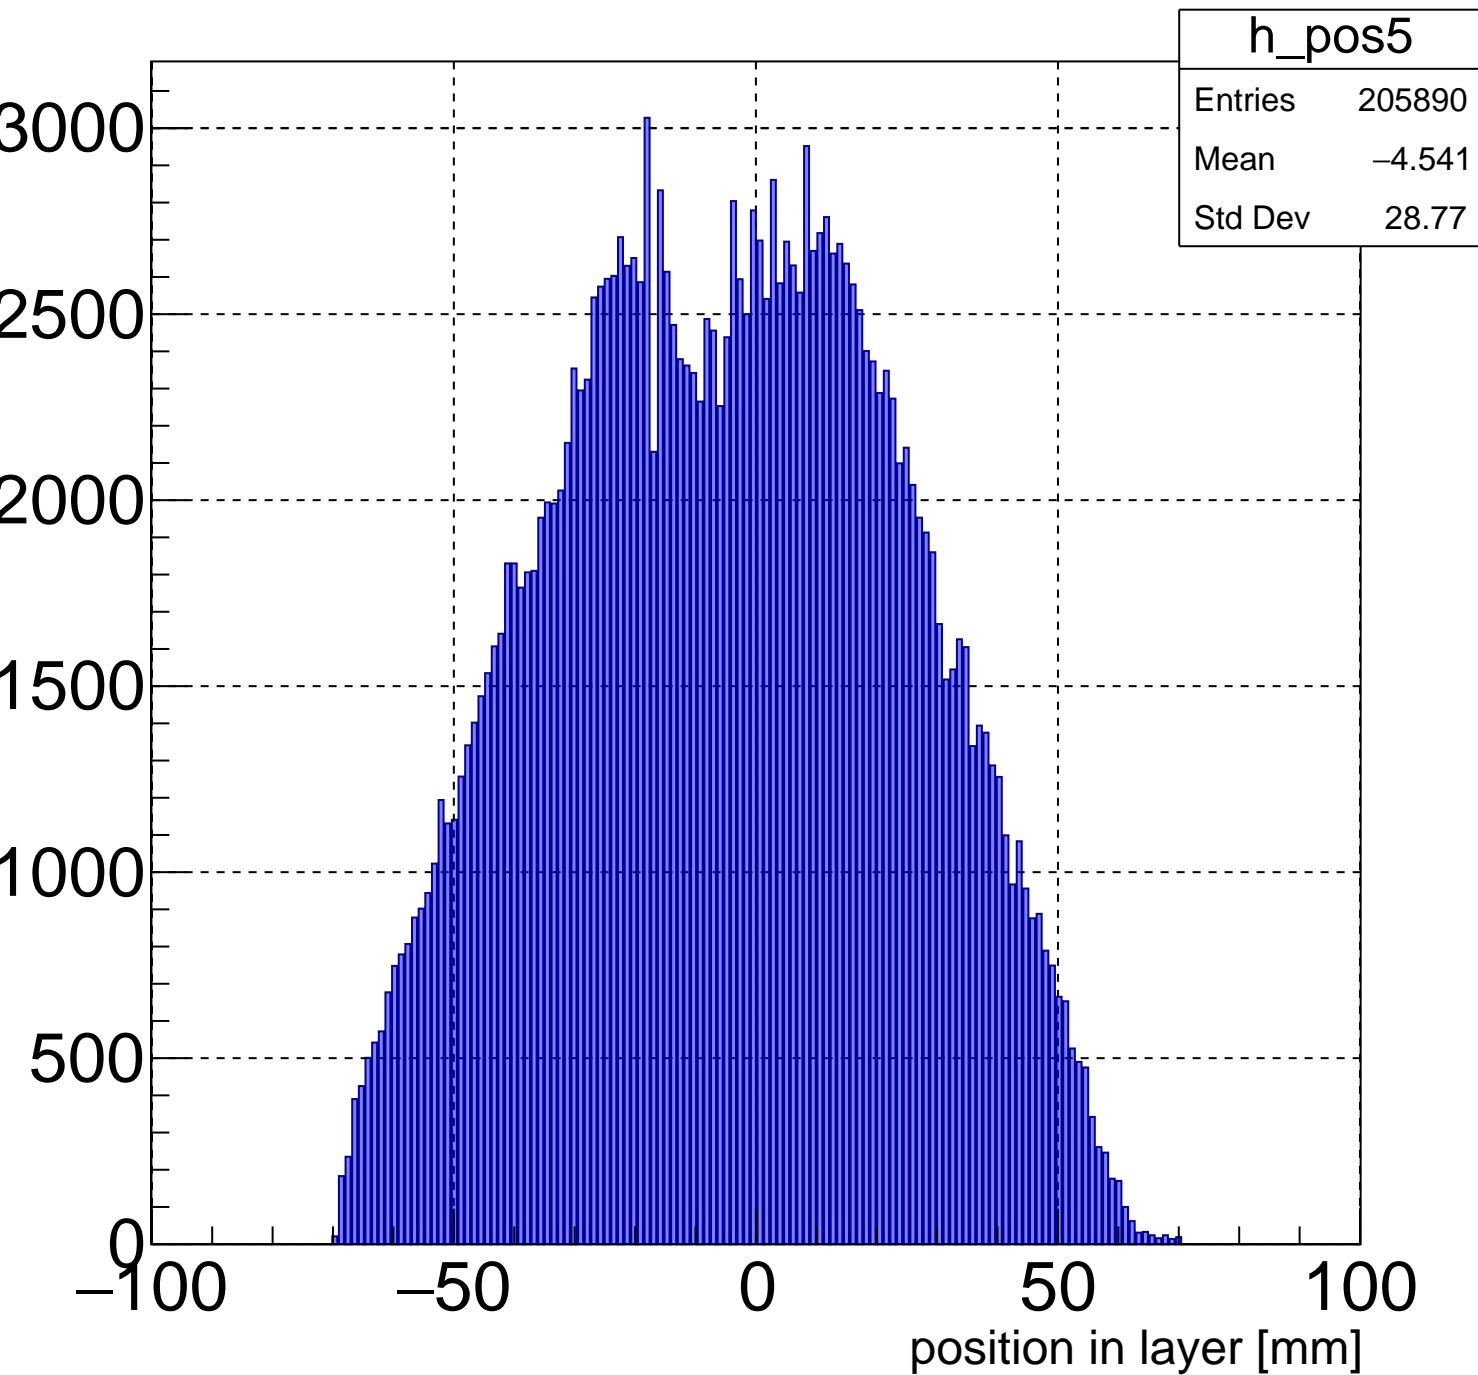

# position of layer 4

# position of layer 5

# position of layer 6

# residual of layer 1

# residual of layer 2

# residual of layer 3

# residual of layer 4

# residual of layer 5

# residual of layer 6

# Leading TDC value of layer 1
